

Cleaning Solvent

Manufacturers of High
Performance Floor
Coatings and
Re-Surfacing Screeds

CLEANERS

- ▲ **Excellent Tool Cleaner**
- ▲ **Rapid Removal of wet Epoxy Resins**
- ▲ **Excellent Tool Cleaner after using Epoxies**
- ▲ **Removes Oil Patches from Concrete**

THE RANGE

We have been manufacturing a range of cleansers for concrete, stone and brick substrates for over three decades. For fast effective cleaning and degreasing of painted concrete, bare concrete and to remove cement splashes from brickwork. These powerful industrial grade cleansers are extremely good value for money.

CLEANING SOLVENT

A blend of solvents for the rapid cleansing of all hand tools and mixing equipment having used epoxy resin based products. For releasing the build up of "resin tack" from the trowel when applying Epoxy Mortar. For quick instant removal of oil and grease spillages from concrete and painted floors.

Available in 5 litre tins.

DESCRIPTION

CLEANING SOLVENT is a carefully formulated blend of solvents designed for the rapid removal of wet epoxy resin materials from hand tools and mixing equipment. As an excellent cleanser to release the build up of "resin tack" from the face of the application trowel. To remove oil and grease and others forms of contamination from bare concrete, painted floors, ceramic tiles and most epoxy resin based flooring. It has outstanding cutting strength and will quickly and efficiently restore contaminated floors back to their original pristine condition.

USES: For the general cleaning of all hand tools and mixing equipment when handling epoxy resin based materials. For the cleaning of the trowel face to release the build up of tack during the application of PATCHING MORTAR, EPOXY MORTAR and EPOXY SCREED HD flooring. For the rapid removal of oil and grease patches from concrete, painted floors, ceramic tiles and most Epoxy Resin flooring systems.. Excellent localised patch degreaser prior to subsequent floor painting.

APPLICATION: When cleaning tools and equipment pour a small amount into a small plastic bucket and apply with a small paint brush. When releasing the build up of tack from the trowel apply using a cloth or small paint brush. Always keep the screw cap on the tin and store carefully away from naked flames.

CAUTION: This product is flammable and must be used with extreme caution.

HEALTH AND SAFETY: Always read the Health & Safety Data Sheet prior to handling this product. Avoid skin and eye contact. If eye contact is made rinse thoroughly with cold clean water for 20 minutes and seek immediate medical advise.

PRODUCT DATA

APPEARANCE / ODOUR

Clear, colourless liquid with mild alcoholic odour

SPECIFIC GRAVITY @ 20°C

0.830 - 0.840

FLASH POINT

This product is highly flammable with a flash point of 12°C Min.

STORAGE

Flammable/Combustible. Keep away from heat, flames and direct sunlight.
